Experience

- **Imperial College London** — **London, United Kingdom**
  Research Associate, Deparment of Electrical and Electronic Engineering — *January 2020–Present*
  - Artificial Intelligence and machine learning to devise clinical decision support systems (CDSS) from clinical, physiological and imaging data for the early identification of dengue shock under the "Innovations for impact in resource-limited settings" Wellcome Trust innovations flagship programme. The team combines clinical expertise from Oxford University Clinical Research Unit (OUCRU) and Hospital for Tropical Diseases (HTD) in Ho Chi Minh City, Vietnam paired with biomedical engineers and computational scientists from University of Oxford, King's college London (KCL), Imperial College London (ICL) and Eidgenössische Technische Hochschule (ETH), Zurich.
- **Imperial College London** — **London, United Kingdom**
  Research Assistant, Deparment of Electrical and Electronic Engineering — *April 2014–April 2019*
  - Enhanced, Personalized and Integrated Care for Infection Management at the point of Care (EPIC IMPOC) is an NIHR i4i funded project to develop an intelligent clinical decision support system to support clinicians prescribe the most appropriate antibiotics. EPIC IMPOC is a collaborative project between clinicians and other healthcare professionals from the National Institute for Health Research Health Protection and Research Unit (NIHR HPRU) and engineers from the Centre for Bioinspired Technology (CBIT).

Education

- **Imperial College London (ICL)** — **London, United Kingdom**
  PhD in Computer Science & Healthcare — *2015–2019*
- **Royal Institute of Technology (KTH)** — **Stockholm, Sweden**
  M.Sc. in Machine Learning (2 years) — *2011–2013*
- **Rey Juan Carlos University (URJC)** — **Madrid, Spain**
  B.Sc. in Telecommunications (5 years) and Computer Science (3 years) — *2007–2013*
- **Other courses** — **Online**
  In partnership with other universities and with online certificate
  - Machine Learning, Andrew Ng (Stanford) — *2011*
  - Artificial Intelligence, Sebastian Thrun (Stanford) — *2011*

Languages

Spanish : Mother tongue.
English : Upper Intermediate writing and oral proficiency.

Skills

Industry knowledge: Machine Learning, Data Mining, Clinical Decision Support Systems
Profesional skills: Project Management, User Interface Design, Software Testing, Version Control Systems
Tools and Technologies: Python, Java, JavaScript, jQuery, Django, PL/SQL, Matlab, AWS
Open source contributions: Shogun-Toolbox (A Large Scale Machine Learning Toolbox)

Research Funding and Awards

- **Imperial College COVID-19 Response Fund (100,000£)** — **Imperial College London**
  Granted by the "Imperial College London" — *2020*
  Grant to re-purpose EPiC IMPOC to support decision making around COVID-19
- **Featured innovative start-up at Tech Foresight 2040** — **Imperial College London**
  Featured by "Imperial Tech Foresight" — *2020*
  Event discussing breakthrough technologies and their potential impact
- **Techcelerate Award (£30,000)** — **Imperial College London**
  Awarded by the "Imperial Techcelerate Programme" — *2020*
  Entrepreneurial programme for postdocs to fast-track their business ideas
- **Imperial-UCT Global Health Fellows Programme (£3,000)** — **Imperial College London**
  Awarded by the "Imperial International Relations Office and the Graduate school" — *2016*
  Professional skills programe for postdocs with an additional research placement
- **ARC Best Poster Award** — **Imperial College London**
  Awarded by the "Antimicrobial Research Collaborative" — *2016*
  Conference to promote multidisciplinary collaborations in AMR
- **Antimicrobial Resistance Diagnostics Competition - AMR DxC** — **University of Edinburgh**
  Awarded by the "University of Edinburgh" — *2015*
  Programme to promote multidisciplinary collaborations to develop new AMR diagnostics
- **Young Researchers Best Thesis Award (£1,000)** — **Rey Juan Carlos University**
  Awarded by the "Rey Juan Carlos University Social Council" — *2013*
  Best thesis in the field of Computer Science
- **Leonardo Scholarship (£1,500)** — **Rey Juan Carlos University**
  Granted by the "Spanish Ministry of Science and Innovation" — *2012*
  Practical project at the Innovation and Research Initiative for Free Software
- **Erasmus Scholarship (£5,000)** — **Rey Juan Carlos University**
  Granted by the "Spanish Ministry of Science and Innovation" — *2011*
  Exchange year at the Royal Institute of Technology

Student Supervision

- **Imperial College London** — **London, United Kingdom**
  Research Associate, Deparment of Electrical and Electronic Engineering — *2020-Present*
  - Supervised 15 students (M.Sc. and M.Eng.) on various topics including expert systems, machine learning, natural language processing, data analysis and software development such as packages, server architectures and user interfaces.
  - Responsible for guiding students on best practices to conduct research including analytical thinking, problem solving, troubleshooting and communication of results effectively through scientific manuscripts, reports and presentations. Emphasis on stimulating good software development practices, regular one-to-one meetings for guidance/troubleshooting and group meetings to enhance their collaboration, communication and feedback skills.

Publications

Journal articles

- **Hernandez, Bernard**, Pau Herrero-Viñas, Timothy M. Rawson, Luke S. P. Moore, Alison H. Holmes, and Pantelis Georgiou. Resistance trend estimation using regression analysis to enhance antimicrobial surveillance: A multi-centre study in london 2009–2016. *Antibiotics*, 10(10), **2021**. ISSN 2079-6382. doi: 10.3390/antibiotics10101267. URL Link
